

# Virologisches und Immunologisches Kolloquium SS 2021

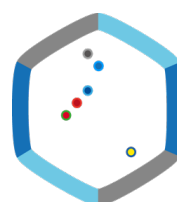

veranstaltet vom Institut für Virologie und Immunbiologie Würzburg

**Online via Zoom:**  
**Meeting-ID: 917 8439 1042**  
**Passwort: 764375**  
**Zeit: Montag, 16:15 Uhr**

12.04.21	<b>David Bloom, Gainesville, USA</b> An in vitro human neuronal model of Herpes Simplex Virus latency: Insights into the dynamic processes of latency and reactivation <i>Host: Lars Dölken</i>
26.04.21 16:30 Uhr	<b>Dmitry Gabrilovich, Gaithersburg, USA</b> Title: Myeloid-derived suppressor cells in regulation of tumor progression <i>Host: Manfred Lutz</i>
03.05.21	<b>Claudia Kemper, NIH, USA</b> Title: Unexpected role for complement in normal cell physiology <i>Host: Niklas Beyersdorf</i>
10.05.21	<b>Branka Horvat, Lyon, France</b> SARS-CoV-2-induced activation of human endogenous retrovirus W envelope expression <i>Host: Bhupesh Prusty</i>
31.05.21	<b>Peter Zipfel, Jena</b> Complement and Innate Immunity: The Role in Infections and Autoimmune Diseases <i>Host: Niklas Beyersdorf</i>
07.06.21	<b>Gordon Brown, Exeter, UK</b> Title: C-type lectins: Key regulators of immunity <i>Host: Niklas Beyersdorf</i>
14.06.21	<b>Michael Weekes, Cambridge, UK</b> New insights into viral immune evasion from quantitative multiplexed proteomics <i>Host: Lars Dölken</i>
28.06.21	<b>Thomas Mettenleiter, Greifswald</b> The Ebola of pigs – African Swine Fever <i>Host: Sibylle Schneider-Schaulies</i>
05.07.21	<b>Ben Willcox, University of Birmingham, UK</b> Unique innate-like and adaptive paradigms in the human $\gamma\delta$ T cell compartment: room for everything <i>Host: Thomas Herrmann</i>
19.07.21	<b>Robert Naviaux, San Diego, USA</b> Mitochondrial functional dynamics and the metabolic foundations of innate immunity <i>Host: Bhupesh Prusty</i>

Gäste sind herzlich willkommen  
Die Dozenten des Instituts für Virologie und Immunbiologie
