

The progress reports are held from 9:15 am until about 10:00 am in room S268.
 Institute seminars take place in the VIM lecture hall. Guests are very welcome
 but have to register in advance: niklas.beyersdorf@vim.uni-wuerzburg.de

Date	Speaker	Topic
	Christmas Break	
19.01.21	Institute Seminar (MSNZ): Leo Rasche	Delineating tumor heterogeneity in multiple myeloma in the era of novel immunotherapeutics
26.01.21	Institute Seminar (Virology): Carsten Scheller	Epidemiology of SARS-CoV-2
02.02.21	Franziska Grän (Resident, Department of Dermatology, AG Kerstan)	Role of B cells in contact allergy
09.02.21	Institute Seminar (Immunology): Manfred Lutz	Myeloid-derived suppressor cells: development, functions, role in diseases
16.02.21	- No seminar (Faschingsdienstag) -	
23.02.21	- No seminar -	
02.03.21	Jann Schrama (Bachelor student, SphingoINF)	Impact of genetic ablation of acid ceramidase on the balance of regulatory and conventional CD4+ T cells
09.03.21	Putri Mandasari (Doctoral Researcher (PhD), SphingoINF)	The role of neutral sphingomyelinase 2 in T cell homeostasis and anti-viral immunity
16.03.21	Institute Seminar (Virology): Christine Kreml	Models for Studying Virus-Host Interactions of Pneumoviruses
23.03.21	- No seminar (Students' course) -	
30.03.21	Laura Cyran (Doctoral Researcher (PhD), AG Lutz)	Induction of memory-type regulatory T cells in allergen immunotherapy
06.04.21	Marcel Mietzner (Doctoral Researcher (MD), FungiNet)	Characterization of anti-fungal mAb
13.04.21	Institute Seminar (Immunology): n.n.	
20.04.21	Arpa Aintablian (Doctoral Researcher (PhD), AG Lutz)	Induction of myeloid-derived suppressor cells (MDSCs) by mycobacteria
27.04.21	Anna Seubert (Doctoral Researcher (PhD), MSNZ)	tba
04.05.21	Institute Seminar (Virology): Adam Whisnant	tba
11.05.21	Moutaz Helal, (Master student, MSNZ)	tba
18.05.21	Anton Althammer (Doctoral Researcher (MD), AGs Beyersdorf & Kerkau)	Modulation of human allo-reactive T cell responses with superagonistic anti-CD28 monoclonal antibodies
25.05.21	- No seminar (Whitsun) -	
01.06.21	Lili Szabo (Doctoral Researcher (PhD), MSNZ)	tba
08.06.21	Institute Seminar (Immunology): Claudia Hollmann & Xin Ding (Postdocs, AG Beyersdorf)	Immunophenotyping of clinical samples using spectral flow cytometry
15.06.21	Muhammad Daud (Doctoral Researcher, FungiNet)	Modulation of T cell responses by secreted Enolase 1 of <i>Candida albicans</i> and <i>Aspergillus fumigatus</i>
22.06.21	Vivien Reineke (Master student, MSNZ)	tba
29.06.21	- No seminar (GRK2581 Retreat) -	
06.07.21	Ina Eckert (Doctoral Researcher, AG Lutz)	Homing of myeloid-derived suppressor cells in mice
13.07.21	Greta Mattavelli (Doctoral Researcher (PhD), MSNZ)	tba
20.07.21	Mara John (Doctoral Researcher (PhD), MSNZ)	tba
	Summer Break
